

## Business events and regional conferencing

Southern NSW boasts stunning natural landscapes, regional producers and beautiful venues throughout the country, snowy mountains and coast. The region provides businesses with an opportunity to escape the city, switch off and connect with colleagues in a more relaxed environment.

Our diverse region offers a range of world-class venues and nature-based team building activities, including farm tours, hiking, boating and fishing. There really is something for everyone.

With a couple of days pre or post conference you can include itineraries to visit the best of our region; swim with seals at Montague Island, spot whales from the coastline, sample from boutique distilleries and wineries, take the team skiing or trek Australia's highest mountain.
